**Jordan Kerwick: *Pink sunsets, cigarettes, 3 regrets and hope to haunt the future* at Vito Schnabel Gallery.** The 25 new monumentally-scaled paintings on view comprise the first LA solo exhibition for the critically admired Australian-born Kerwick, who lives and works in the South of France. Replete with outlandish, commanding figures drawn from his imagination, Kerwick's fantastical visual style is expressed in scenes of menacing beasts and predatory animals rendered in an intense, vibrant palette of electric color. *Old Santa Monica Post Office, 1248 Fifth St., Santa Monica; On view through June 26; free; [vitoschnabel.com](http://vitoschnabel.com).*
